

XILI SMART

XILI SMART[®]

Linear lighting

XILI SMART[®]

XILI SMART is committed to excellence and innovation. As the saying goes, God is in the detail. So we always pay special attention to the details in order to meet the clients' expectations. That's why we have gained a good reputation both at home and abroad.

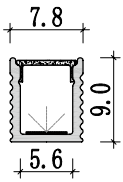

Our products are designed and manufactured in our factory, located in Foshan City. We have a wonderful team who is equipped with the latest technological innovations and with a hot heart to keenly observe and capture the ideas.

Our goal is to be a great brand in the field of linear lighting. We believe that our products would reach to the world and bring a new life style of lighting to more countries all over the world.

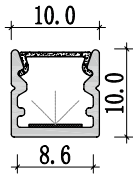

Ingenious designing, scientific technology

Mini size Surface-mounted linear fixture

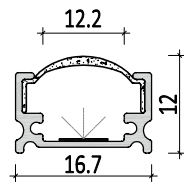

These Surface-mounted linear fixtures are our hot-selling products with a narrow, low profile. The 118-degree beam angle is ideal for a wide, even spread of light like in cove and wall-washing applications. They can create clean, modern linear designs for retail stores, commercial buildings and residential interiors. Some of them can also be used in conjunction with our tiltable stands. There are includes a choice of clear, frosted or milky diffuser. We also support customized product if you have a good idea.

Art aluminum profile

The skirting lights play a visual balance in the room design. Using their linear vision, materials and colors to echo each other, they can beautify the decoration effect and outline the sense of space. Another function of the skirting line is its protection function. The skirting line can better bond the wall and the ground firmly, reduce wall deformation, avoid damage caused by external collision, and it is easier to clean.

IP65

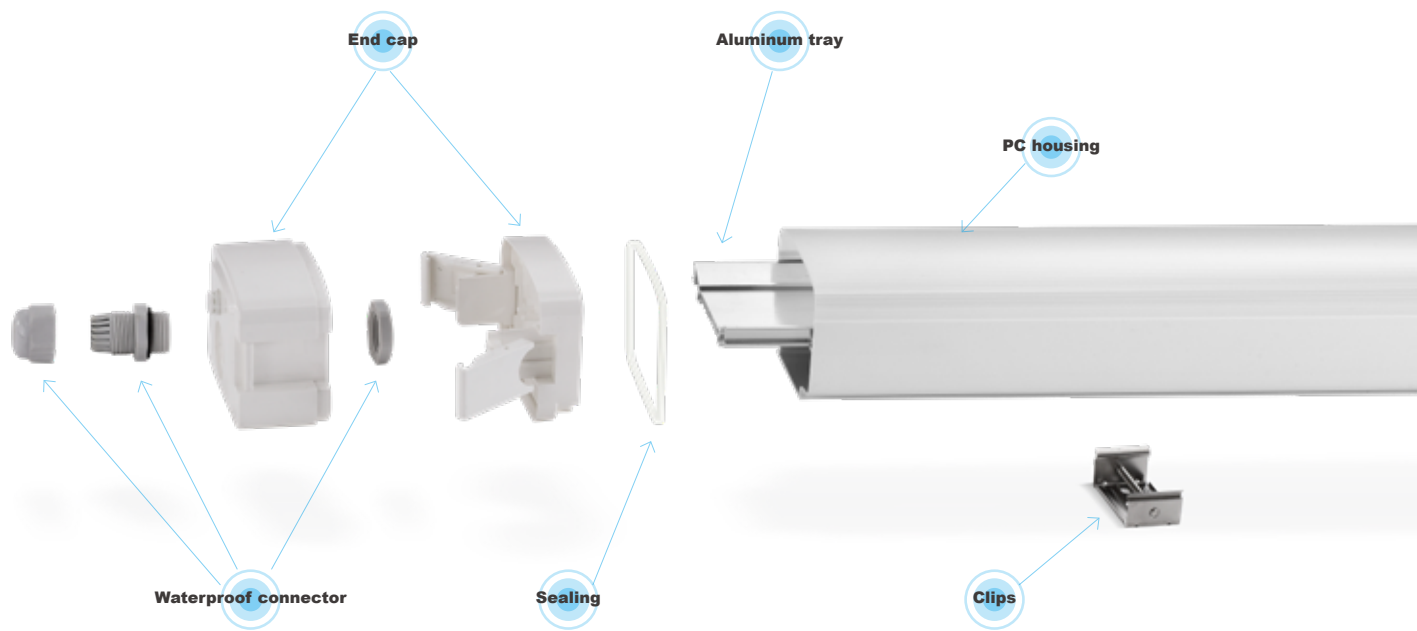

Tri-proof light

Tri-Proof light combined by aluminum 6063 and PC diffuser. They have an excellent heat dissipation and widely use for different lighting applications.

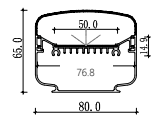

Tri-proof series products achieve IP65 waterproof, dust, corrosion, and pressure-proof. Patent functional design with imaginative appearance.

It is widely applied in commercial lighting, public lighting, and industrial lighting, such as supermarket, exhibition hall, parking lot, tunnel, train station, airport, factory, warehouse, and food processing plant.
